

CERTIFICATE OF COMPLIANCE GOTS

The company **TEXTILES ILITEX, S.L.** certifies that the fabric

ALGO-LOGICO

Complies with the standard **GOTS (Global Organic Textile Standard)** version 4.0

This means that the processing steps like **administration, bleaching, dyeing, printing, trading or washing** have been supervised.

Ecological fabrics are made with natural fibres, like cotton, linen... These fibres are grown using methods and materials that have a low impact on the environment.

Organic production systems replenish and maintain soil fertility, reduce the use of toxic and persistent pesticides and fertilizers, and build biologically diverse agriculture.
